

Improving the health and well-being  
of African Americans in St. Louis  
by mobilizing the faithful

**Does faith call you to create  
a more equitable St. Louis?**

## **Join Faith & *For the Sake of All* Liaison Training Program**

***For the Sake of All***  
began as a research exploration  
of the health disparities among  
African Americans in St. Louis  
and has evolved into a  
community mission to eliminate  
racial inequities & improve the  
health of all people in our  
region.

**Liaisons work to**  
deepen the community's  
understanding of & response to the  
disparities in health and well-being  
between African  
American & white St. Louisans.

**Interest, questions,  
or to RSVP**
